

Prof R K Yaji, R Shivashankar, Ananya Vasudev (District Disaster Management Professional) and NITK Dean Dr K S Babu Narayana delivered a talk on landslides at a workshop held in NITK here recently.

Workshop on landslides organised in NITK

MANGALURU, DHNS: A one-day workshop on landslides-its causes, effects, impacts, prediction, prevention and protection under the title 'Problematic Slips- Analytical Tips', was organised by the NITK and The Institution of Engineers (India), Mangaluru Local Centre, under the leadership of Dr K S Babu Narayana, Prof and Dean (Planning and Development) NITK.

The workshop highlighted on how these events are

pursued by the engineering community with the state-of-the-art techniques of data acquisition, analysis, design, detailing and monitoring of venerable terrains.

The workshop also provided a platform for deliberations to enhance capabilities of the stakeholders.

Prof R K Yaji, R Shivashankar and Ananya Vasudev (District Disaster Management professional) were the resource persons at the workshop.
