Engineer 2024, the four-day technical festival of the National Institute of Technology - Karnataka (NIT-K) began at Surathkal on Thursday. The theme of the festival is 'enchanted cosmos' and it aims at inspiring innovation, curiosity, and exploration of the vast universe, a NIT-K release said. The event which features 30 events till October 20 is expected to attract over 25,000 visitors.

Some of the events scheduled are hackathon, auto expo, gaming events, tech-nights projects, robocons expo, tronix expo, drone racing, virtual sky tour, engi talks, ACM VR expo, tech mela, and pro show, it said.

The event has consistently provided a launchpad for innovative ideas, startup successes, and industry-academia collaborations, said the release.

Shilpa R., managing director of The Hutti Gold Mines Co. Ltd., inaugurated the event.
